# Preface

---

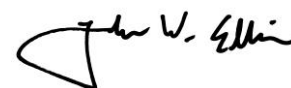

Benjamin Disraeli once said: “There are three types of lies – lies, damn lies, and statistics.” On that same note, the great Vince Lombardi mused, “If it doesn’t matter who wins or loses, then why do they keep score?” which sums up the purpose of keeping and All-Time Record of Bettendorf Football Statistics: because it matters.

The following All-Time Statistics was compiled using a variety of information such as archived score sheets (compiled by coaches at the end-of-the-year—much thanks to Bettendorf Bulldog Boosters for their retention of these records) as well as newspaper articles. As well, beginning in 2006-07, the Iowa High School Athletic Association began keeping (via the submission of each school) both team and individual records on their QUIKStats system which is also archived on their website. Finally, it would be an understatement to say that this project wouldn’t exist without the detailed records former head coaches Merv Habenicht and Randy Scott kept and shared with me and now, yearly, current head coach Aaron Wiley does the same—so thank you to all of them.

As a side note, one goal I have—someday—is to take an extended trip to the Quad Cities and thoroughly go through *Quad City Times* archival newspaper records from 1951-1973 create a true and complete “All-Time Statistics” as without a doubt there are players and teams from those seasons whose accomplishments would rank among top performers in school history.

In closing, note that these statistics are not “definitive” nor will I ever claim to be “the official” record keeper of Bettendorf Football statistics. As well, while the school keeps a variety of “Top 10” records and most of them are mirrored here, not all are (and vice versa from here to the school). While these records are believed to be about 95% accurate, any omissions and/or errors—and there are bound to be some—are purely unintentional. Simply email additions or corrections to [siteadmin@bettendorffootball.com](mailto:siteadmin@bettendorffootball.com) and the list will be updated.
